

SUBMITTAL: DOMED EQUIPMENT HATCHES - DEHG & DEHA

Insulation: The lid has 1" fiberglass insulation in the space between the exterior cover and liner.

Construction: Curb and curb frame are 14 gauge galvanized steel (DEHG) or .090 aluminum (DEHA), fully welded and ground smooth for weather tightness. Includes 12" high curb with rigid insulation and 4" wide flange for securing to roof deck. The lid includes a one piece dome (or multiples) of either white translucent or clear colorless acrylic, a dome frame of extruded aluminum #6063-T5 with minimum thickness of .070 provided with a self-contained sloping condensation and weepage gutter for drainage. Lid construction is galvanized steel or aluminum exterior with metal liner and continuous bulb gasket door seal. Oversize doors may be spliced.

Hardware: Hardware includes heavy-duty galvanized hinges, compression spring automatic hold-open and operating arms with red vinyl handlegrip. Standard lift springs are pressure intensifiers, or adjustable torsion spring are provided for oversized models. Lid hardware has a 2 point universal spring latch, and exterior and interior handles with integral padlock.

Finish: 2 coats prime coat.

Options:

- White Dome Clear Dome
- (RHWL) Gravity-operated battery-powered flashing warning light
- Polyiso insulation - see separate submittal.
- Custom Sizes & Finishes Available - Contact customer service.
