

**SUBMITTAL: ACADEMY™ ALUMINUM FIRE EXTINGUISHER CABINETS**

**The Academy Series Features Aluminum Trim and Door, with 10 Door Styles & Optional Anodized Colors.**

**Door & Trim Construction:** No 180 clear anodized aluminum. Flush cabinet doors with a 5/8" door stop are attached by a continuous hinge and equipped with zinc-plated handle and roller catch. All models have 1-3/4" wide trim on frame and 1-1/4" trim on doors with glazing. Rolled edge models are constructed of mechanically-joined extrusions, except for models 1827 and 1027 which are die formed. *Die formed corners provide an attractive, rounded edge - unique to the JL line of cabinets!*

**Trim Style & Depth:** *Recessed* 3/8" flat trim, *Semi Recessed* - 1-1/4", 1-1/2" Square Edge or 2-1/2", 3", 4", 4-1/2" Rolled Edge (4" has recessed ADAC pull). *Surface-mount* models have a square edge.

**Tub:** The tub is constructed of cold rolled steel with white powder-coat finish standard. Surface-mounted models have aluminum tub.

**STEP 1: SELECT MODEL NUMBER AND QUANTITY ON CHART** (refer to chart on pg 2)

- A. Determine Trim Style according to wall depth.
- B. Determine Tub I.D. according to size most suited for extinguisher and wall opening.

**STEP 2: SELECT DOOR STYLE WITH HANDLE**

Check one box below Examples on Page 2
